

## Candidate for the Managing Committee

Wes  
Ryan  
Cardoso

- Ryan has a BE in Electronics and a Masters in Systems Chip Design from Sweden, where he also took courses in Finance and Finance Technology. With over 15 years of experience in Technology and Financial advisory, he has developed a work model which is process oriented with attention to details. Ryan has participated regularly in sporting activities at BPS club, socialized with other members, and has developed an understanding about how to advance the club further. Having been a chairman of a housing society, he also has an intricate understanding of the functioning of a committee.
- Ryan feels strongly that the club needs to be member centric and sports centric so that members can engage in many activities and feel that 'BPS is a second home.' With his diverse experience, Ryan is confident about handling the affairs of the club in a much more efficient manner and is hoping to garner support from members to rally behind a cause as opposed to a so-called committee member's post. If he is given a chance to serve, he promises that members interests will be put above everything else and will serve to the best of his abilities.
